Shower Door of Canada

SHOWER DOOR OF CANADA INVISIBLE SHIELD® PROTECTION SYSTEM

All glass surfaces have a non-smooth finish which can attract the build-up of particles. The Invisible Shield® Protection System provides an invisible, protective nano-scale coating which seamlessly seals the surface to ensure this buildup does not bond to the glass and the glass retains its optical clarity for a lasting sparkle.

Protected glass results in the reduction of hard water minerals, limescale and build-up for easier cleaning and maintenance and an overall, improved appearance.

Invisible Shield Advantages:

- ✓ Resists Staining and Contaminants
- ✓ Significantly Reduces Cleaning Time
- ✓ Improves Glass Appearance
- ✓ Prolongs the life of the Glass
- ✓ Eliminates the use of harsh & damaging cleaning products
- ✓ 100% Performance Satisfaction Guaranteed

Factory Product Application

- ✓ New glass panels are cleaned to remove any impurities from glass surface.
- ✓ Glass Protection powered by Invisible Shield is applied by our factory technicians
- ✓ With your factory applied Glass Protection purchase we will provide you with Repel® Glass & Surface Cleaner to properly maintain your glass.
- ✓ * Do not use abrasive cleansers as they can interfere with the protective coating. A light towel dry is recommended as needed.
